

COMPACTION BY HUSQVARNA

High Performance - Operator Efficiency

ask about ProV1

Check out these features:

- LF 75 Plate comes with integrated transport wheels, folding handle, and 3.4 gal water tank.
- Equipped with low vibration handle saving strain on hands and arms. Allows for a full days work.
- Sealed bearings in eccentric housing and V-belt cooling reduce maintenance. Save time and money.
- LT 6005 Rammer is equipped with a Honda GXR120 engine designed specifically for rammers.
- Compact well balanced design delivers high impact energy with low hand vibration.
- Service friendly with air filter monitor, easy filter access, and low oil warning light.
